Hello Yash Sir,

I am a Python Backend Developer intern at ParallelDots. I am a student at Medicaps University. In my current semester, I have to submit the details of my internship to the college administration. In this, I have three criteria to fulfil that includes

1. The duration should be at least 4 months.
2. The company in which I am doing my internship should be MCA registered.
3. The company should have a turnover of Rs. 10 Crore or higher.

As I have a 6 months internship period, and I have also successfully found the CIN number of the company. Hence I have already fulfilled the criteria for the first two conditions. But I am unable to find any relevant data related to the third criteria.
I humbly request you to mail me either some proof or some justification regarding the company's turnover.

Looking forward to hearing from you.

Thanks and Regards,
Sarthak Kale

Hello Sarthak,

I hereby confirm that ParallelDots satisfies all the criteria mentioned above. Let me know if you have any more questions or concerns.
